

To Whom It May Concern: I have received information from my K-LOVE radio station that the FCC has introduced a new broadcast service known as Low Power FM (LPFM), which they are proposing to take priority over current FM translator service. I was informed that advocates of LPFM feel that there is little value in national or regional services, such as K-LOVE, which is often heard on FM translators. I listen to K-LOVE everyday and know many people in my community that also listen to this station. It is a very positive influence on my daily life and I would hate to lose it! K-LOVE is listener supported and I personally send a monthly donation to K-LOVE. This station is heard in so many communities across the country and it would be a shame to lose it! Hundreds of thousands of people listen to K-LOVE on the FM translators daily! This station is very family friendly and rated G for all listeners. It is in the public's interest to keep programming like K-LOVE on the radio! It's support of wholesome values has a positive and encouraging impact on communities across America. Please don't take away our station!!! Thank you for listening to my comments! Sincerely, Lisanne Foster
